

## Macromedia® Fireworks 4

---

This course is for those who want to learn to create artwork within Fireworks 4, export it for the Web, and import it into Dreamweaver 4. It also illustrates how to integrate Fireworks into the Dreamweaver workflow, which can be extremely useful for working on graphics-heavy Web pages and for maintaining good site organization.

Students will learn to integrate features of Dreamweaver 4 and Fireworks 4. They will also learn bitmap editing, working with groups and layers, using vector tools, text, fills, live effects, optimizing and exporting, animation, creating buttons, making image maps and slices, and production techniques.

Duration:

- 3 Days, Instructor-led

Prerequisite:

- There is no prerequisite for this course.

Topics Include:

- Introduction to Fireworks
- Bitmap Editing
- Working with Groups and Layers
- Using Vector Tools
- Text, Fills, and Live Effects
