

## Domino R5 Advanced LotusScript

---

For experienced Domino LotusScript developers who want to increase their knowledge of the LotusScript language. This intensive course enables students to go beyond the fundamental skills necessary to work with LotusScript in the Domino environment, including the LotusScript language constructs and the Notes object model, as well as the debugger.

Duration:

- 2 Days, Instructor-led

Prerequisite:

- Course 713: Domino R5 Basic LotusScript

Topics Include:

- Overview of LotusScript in Domino R5
- Exploring the LotusScript Design Environment
- LotusScript Language Constructs
- Using ACL classes
- Using LSX and ODBC classes
- Incorporating Error Trapping
- Using the LotusScript Logging features
